Have you ever wondered what it's like to be Black and conservative in America? It's a unique experience, one that is often misunderstood and overlooked. In the book "Being Black And Conservative In America," author Dr. Clarence E. Page explores the lives and experiences of Black conservatives. He interviews prominent figures, such as Condoleezza Rice, Herman Cain, and Larry Elder, to gain insights into their perspectives on race, politics, and culture.

Dr. Page argues that Black conservatives are not simply pawns of the Republican Party, but rather thoughtful individuals who have come to their beliefs through a complex set of experiences and values. He highlights their commitment to family, faith, and self-reliance, and their belief in the power of individual responsibility.

The book also explores the challenges that Black conservatives face. They are often marginalized by both the Black community and the conservative movement, and they are often subjected to racism and discrimination. Despite these challenges, Black conservatives remain a vibrant and growing force in American politics.

If you are interested in learning more about the experiences of Black conservatives, then this book is a must-read. It is a fascinating and thought-provoking look at a hidden part of American society.

## **What People Are Saying About "Being Black And Conservative In America"**

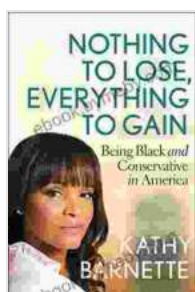

"A timely and important book that sheds light on a often-overlooked part of American politics." - The Washington Post

"Dr. Page has written a powerful and personal book that will challenge your assumptions about race and politics." - The New York Times

"A must-read for anyone who wants to understand the complex and evolving relationship between race and politics in America." - The Wall Street Journal
